PRODUCT BENEFITS

RhinoFit's grass-fed collagen peptides powder is synthesized utilizing grass-fed collagen peptides from healthy cows and provides nutrient-rich type I and III collagen peptides.

Our product is synthesized utilizing the latest scientific research and formulated with the purest sources of whey protein concentrate to produce world class results.

Our formula is third party independently tested for heavy metals, impurities, made in the USA, GMP certified, and produced in an FDA registered facility. 1% of the supplements on the market can match our world class standards.

- Gluten Free
- Zero Added Sugar
- Corn Free
- Lactose Free

SUGGESTED USAGE

As a dietary supplement, take one (1) scoop with 12-16 oz of water.

Manufactured at FDA
Registered and GMP Certified Facilities / 3rd Party
Laboratory Tested for Purity, Potency & Quality.

Our Formula	Vs Other Formulas on the Market.
<p>1. Uses third-party independently tested ingredients that are made in the USA, GMP certified and made in an FDA registered facility.</p>	<p>1. Source cheap ingredients from heavily polluted soils. Even “organic” supplements not third-party tested have been removed by FDA due to high levels of heavy metals.</p>

2. Uses collagen peptides on grass-fed cows yielding high sources of proline and glycine.

2. Uses collagen peptides from non-grass-fed cows and poor sources of amino acids necessary for collagen
